D. P. W. SUBJECTS,

HASSAN DISTRICT.

Subject and Name of Member introducing it.	Summary of discussion.	Reply of Govt.
Subject No. 272. **Restoration of the Nayakarahalli tank, Mr.**	The extension of the Chengravalli Channel would benefit the raiyats holding lands below the Nayakarahalli tank which breached in the year Chitrabhanu. It is requested that the tank may be restored as early as possible.	Referred to P. W. D.
Subject No. 273. **Restoration of Kudlur Nala. Mr.**	The restoration of the Kudlur Nala was prayed for in 1895 and it was then ordered that the matter would be disposed of in the Public Works Department. The work has not yet been taken on hand. As the Anikat is in good condition, it is requested that the restoration of the Nala may be ordered.	This is not a good project as was decided by the P. W. D. several years ago. If necessary the Executive Engineer will see the place again.
Subject No. 274. **Want of repair to certain tanks in Channarayapatna Taluk. Mr. Padmarajaiya of Channarayapatna Taluk.**	There are several large tanks in the Channarayapatna Taluk, yielding a Revenue ranging from Rs. 500 to 2,000 such as those of Anati, Nowle, Papanaghatta, Chalya and several others. It is requested that orders may be issued to the Public Works Department to pay proper attention to their timely repairs, as otherwise there will not be a sufficient supply of water when most needed.	This matter will receive attention in the P. W. D. to which this representation is referred.
Subject No. 275. **Raising the level of the Kodi of the Channarayapatna Tank. Mr. Padmarajaiya.**	When the tank at Channarayapatna was repaired, the Kodi seems to have been lowered a little. As the tank fills easily and much of the water goes to waste, the Kodi may be raised by about 3 feet so as to ensure a sufficient supply of water for irrigation and other purposes.	This matter is receiving attention in the P. W. D.
Subject No. 276. **Improving the Metikere tank. Mr. Padmarajaiya.**	It is requested that the Metikere tank in the Hirisave Hobli may be improved by repairing the breached Kodi and constructing a sluice.	Under investigation by the P. W. D.
Subject No. 277. **A water-supply scheme for Arkalgud. Mr. Konanur Venkataramaya, District Local Fund Board.**	There is a tank at Arkalgud midway between the fort and the petta; but it is on a lower level than the town; the wells in the town fail during the summer. Want of water is felt both by the people and by cattle. A water-supply scheme is therefore desirable.	Referred to P. W. D. for disposal. Such works are being taken up according to urgency and as funds become available.
